Subject: Confirming Final Flint Transition Paper
Morgan,

Hi. I wanted to make sure that I have the most updated Flint transition issue paper for my management here. I have a final version from 11-16. Would it be possible to confirm whether there have been any additional edits/updates to the paper since then? If so, I can work through our DAA to request a copy.

Thank you,
Karen Gude, Special Assistant
U.S. Environmental Protection Agency
Office of Water

Hi Christine,
I'll call you when I get in this morning. OP asked that only final issue papers be shared between DAAs and DRAs. As of yesterday, Flint was waiting final approval in the e-briefing system.
Copying Laura Gentile of OP.
Thanks,
Morgan

Hi Morgan, OW is trying to find the latest version of the Flint paper so we can start to prepare for transition briefings. Attached is the latest version that you sent to Karen Gude and me back in October, and which OW indicated to you was good to go. Could you send us the final version? And could you indicate if it is draft or final/approved. Thanks for your help. (Karen Gude is out of the office until this Thursday). Christine

Karen: attached is the revised version that Region 5 provided to OP on Friday morning, October 7. We thought this version addressed OW, OPA, AO, OECA and OPEEE's comments. As you mentioned in your note below, OP and OPA are conducting a final review in advance of both OGC's and Shannon Kenney's review; and thus, I don't know if they have made any additional comments on the attached version. I am copying Laura Gentile (OP), Nancy Grantham (OPA), and Sandra Connors (AO) – they can provide you with an updated version, if one exists. Thanks.

Tinka,

Hi. I see that you are listed as the lead for the Transition Issue Paper on Flint. Would it be possible for OW to see the current revised version of the paper? When OGWDW provided initial edits on the draft paper, they had indicated that they would appreciate an additional review of the document, once comments were addressed. I understand that the paper is undergoing final OP review, in advance of both OGC and Shannon's review, and my instructions to OGWDW would be that this is a courtesy review, and unless any information is incorrect or inaccurate in some way, we would not be providing additional comments at this time.

Thank you for your consideration.

Subject: RE: Transition issue paper: Flint -- please provide any comments by 12:00 pm October 3

Morgan,

Thanks so much for the opportunity to review the draft Flint transition issue paper. Attached please find OW's recommended edits. If possible, would appreciate an additional opportunity to review after some of the comments are addressed. (Please note that because I was not the lead reviewer/commenter for this paper, OW did not manage our edits through the One Drive; my apologies in advance for any inconvenience, and my apologies that our comments are coming in a bit late.) If you should have questions or need any additional information, please let me know.

Thanks again,
